Facebook Tech Talks at Sapienza

Tuesday 6th November | 5pm-7pm
Sapienza University of Rome, Facciali Via Caserta, 6 Room: Luigi Capozzi Ground floor

In these talks, we will lead the students in a journey that goes from the motivation and why one should apply for a tech giant's position, to how to prepare the technical interviews and what it means to work on products used by billions of users. Through our stories, we will show that with effort and a good preparation one can take on the challenge.
